26th July 2016

Dear Sir/ Madam,

Mr CHUA Wang An – Clinical attachment and Intern

Chua Wang An was an intern for Infection Control of the Nursing Division for a period of ten weeks from 16 May 2016 – 22 July 2016.

During these weeks, he was responsible for the designing of a prototype system to monitor compliance for hand hygiene. The system involves the monitoring of processes which includes a voice reminder and a wireless system for transmitting the data into the computer terminal hard disk for storage purposes.

In the weeks as an intern, he had the opportunity to observe and experience the clinical processes in the ophthalmic imaging department.

He exceeded expectations by completing the project ahead of given time and demonstrated his commitment to the project. This commitment meant that the quality of work delivered was consistent. He tirelessly debugged the system and excelled in detecting errors in source coding and will not rest till the error is resolved. He went the extra mile by working during the weekends to ensure that the prototype could be deployed within the stipulated period of ten weeks. This shows that Wang An is resourceful and focused. He displayed pride in his work.

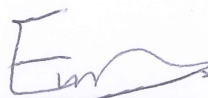

He is a good team player who works well with health care professionals. He will be an excellent adjunct personnel to the health care system.

Kind Regards,

Ms Aw Ai Tee

Assistant Director of Nursing
Department of Nursing Administration & Day Ward
Singapore National Eye Centre

Ms Loh TC Eunice

Senior Nurse Clinician
Infection Control
Department of Nursing Administration & OT
Singapore National Eye Centre
